When the night busts open
And the stars are shining bright
I see the lights rising above us
I got some money and I'm feeling alright
We go down this road
And it's into the shadows where we'll always go
Seeing the lights shine
Come on girl and be mine
And if you can't take the heat
Baby, meet me tonight on the street
The darkside of the streets
You can't see through
You'll never make it around
You'll never make it through
Things fall down and get caught
Put it together and it falls apart
But no more hearts shall burn
No more of our breathing morns
But breathing is far above
Love is truth and truth is love
Don't ever look back
Promise you'll never say no
Don't let me fall

Cause girl, they'll know
Something keeps pushing me inside
Finding you girl under the street light
Push your way to the heart of the night
I feel like acting wild and i want to break out
When the night busts open
And the stars are shining bright
I see the lights rising above us
I got some money and I'm feeling alright
We go down this road
And it's into the shadows where we'll always go
I push my way to the heart of the night
And we ride to blow off everything in sight
I'll tell you all the things that you want to hear
I'll be the one whispering in your ear
Save your love for one last ride
Save your love for tonight
No more our hearts shall burn
No more of our breathing morns
And if you can't take the heat
Than baby meet me tonight on the street.
