"Beautiful"

Im calling out
your precious name
to come and save me
from falling from grace
can you hear me now
im still reaching out
hold onto me
im still worth your while

Your so beautiful x3
Your still beautiful to me

Thank you for
all that you are
for standing by my side
for showing me a life
now i give to you
everything i have
my gift from me to you
you never have to ask..

repeat chorus

I want you to come
in my heart and in my soul
i can feel wont you let me through
into you

repeat chorus x3
