Tried to tell ya one time but your,
head was in the clouds

No idea, was coming down

Looking for the answer instead of,
looking out of bounds

All I'm saying, just don't know, 'bout you
All I'm saying, just don't know

Wake up in the morning wondering,
how'd you end up here

Negotiate your own way clear

Looking for the answer instead of,
looking in your mirror

All I'm saying, just don't know, 'bout you
All I'm saying, just don't know

Maybe you're right man then again
Que sera sera mi friend

All I'm saying, just don't know, 'bout you
All I'm saying, just don't know

All I'm saying, just don't know, 'bout you
All I'm saying, just don't know
