Spazed in a time zone
of light and darkness
here I've known
I feel quite happy in this place
float into sky tones
of blue and white
and ends unknown
I feel quite happy in this place
I hear somebody callin'
off in the distance yellin'
Spazed, Spazed, Spazed, Spazed
hitchhike to starplanes
of gas and lights and colored rings
just floating out there
in the maze
no goin' home zone
no twisted signs of lives we've known
I see the colored earth below
I hear somebody callin'
off in the distance yellin'
I hear somebody callin'
off in the distance yellin'
Spazed, Spazed, Spazed, Spazed
Spazed, Spazed, Spazed, Spazed
Spazed in a time zone
of light and dark and color codes
I feel quite happy in this place
