I'm into kickin' my own ass  
That's a very bad habit  
You forget things  
It helps that  
Kinda like being high a lot  
It gives me a..."New York" feelin'  
People around just can't seem to catch on  
My charismatic ways  
They call me a wannabe philosopher  
..I don't think so...  
I just like to be opinionated  
I'm no Confucius, my friends  
I feel like a child sometimes  
I act on my feelings when I do  
I play with words, not always when I write  
I'm uncomfortable---nervous---about  
Letting people read my work  
That's why you may never see this
