Wake up and put on your armor
We rush to the battle scene
Fire and brimstone we'll bring to the fight
And souls will be lifted from here to the sky
And He will descend from the clouds
Like a thief in the night

These trials seem so long
And the days I feel are killing
But my hands will clench to Yours
When it seems like I am falling
Because You were always there

To welcome, Your welcome
Is the first thing You do to me always
When I've been so far away
And You are the best thing
That has happened to me and
Forever I'll worship You

This is the end hear it comes
This is the end that we're in
Haven't you heard haven't you
The dead will rise
Awake the Bride

And it's such a chore for me
Just to see the world is ending
But the news paper writes and
The television screams
That this is the end
So haven't you felt the love of Christ
Haven't you felt Jehovah's love

One day we'll see Your face
One day Your welcome
Welcome, Your welcome
Is the first thing You do to me always
When I've been so far away
And You are the best thing
That has happened to me and
Forever I'll worship You

This is the end
Here it comes
Oh, haven't you heard
Oh, haven't you heard
