Everything you say is just a lie  
And now I'm leaving to the city  
Where the people are awake  
To chase the dream that isn't real  
And we pose to be something that we're not  
Just wanna change a lot and sign their name after the  
dot

Everything you see is just a century of anarchy  
? Among all of swarming colors  
That symbolize the things we can attest  
A range we can assess we can attain  
We are the intrigue?  
Entities to entice and entertain

All eyes, they're on you  
Don't deny you've got two  
This is a call, that's all you'll ever get from me  
This is a call, that's all you'll ever get from me

Take my side  
Take my side  
Don't look back  
Now I'm easy  
And that's a fact  
And you're on my mind  
Ohh

Everything you say is just a lie  
And now I'm leaving to the city  
Where the people are awake  
To chase the dream that isn't real  
And we pose to be something that we're not  
Just wanna change a lot and sign their name after the  
dot

All eyes, they're on you  
Don't deny you've got two  
This is a call that's all you'll ever get from me

Now will the sun come up tonight?

Because you're eyes they burn so bright  
I'm all you've got  
When you say  
That you want it all  
You want it alll

All eyes, they're on you  
Don't deny you've got two  
This is a call, that's all you'll ever get from me  
This is a call, that's all you'll ever get from me

All eyes, they're on you  
Don't deny you've got to  
This is a call, that's all you'll ever get from me  
This is a call, that's all you'll ever get from me
