A human blood written book  
Pages of centuries torn skin  
Filled with death and madness  
Can even God read those lines?

Past...Present...Future  
Oval...Oval Account (x2)

Endless lack of knowledge  
For our rational weak minds  
Desire to break the circle  
Need to read the bloody lines

If God wrote the first word  
Why can't He put the last point?

Trapped in the oval account  
He bends to His creation, as us!

History...Oval Account!

L'Historie...Recit Ovale! (x2)

Past...Time of all taboos  
Eyes bleed watching behind  
Present...Time of all tortures  
Feel the suffer to live

Future...Time of all pleasures  
Ouvre...Ouvre les yeux et souffre!  
Future...Time of all pleasures  
Ouvre...Ouvre les yeux et souffre!

We are the witnesses  
Witnesses of a single word  
Word that might, might be: Hell!  
If He can't put the last point...
