Visit "[Perfection](#)" on MotoLyrics.com

In quest of an absolute
Offering body and soul
To an unknown obscure goal
Searching for perfection?

The point of no return
Music comes within noise
Flashes of genius
Transcendental Trance!

Refrain:
The Divine State

Nails in my brain
Walking on embers
Ultimate sensations
Searching for perfection?

Fast heart beating

Water, blood and sweat
Total soul grinding
Transcendental Trance!

Refrain:
The Divine State (x3)

From beyond the beyond...
From there...my freedom!
From beyond the beyond...
From there...from there my freedom

Expulsion of the negative
Being an animal
Feeling so fucking wild
I really begin to live

Refrain
