

Isengard "Atomic Winter"

Visit "[Atomic Winter](#)" on MotoLyrics.com

There is no time tomorrow
Now the end is near
You can hear them cry and the winds of fear

The morning light is sorrow
Filled with death and pain
You can see the clouds of acid rain

Everyboby fights for their lives
The light is gone, it will forever be winter

Atomic winter

You don't have the time for another prayer
Atomic winter
Because the angel will come and get you soon

There is no life tomorrow
It is the end you see
All our time is gone for you and me

The day has turned to dawn
Now the night is hear
All the people cry a single tear
