Another day has come
A new morning is here
Gone is the dark and cold
And there's nothing I fear

Travelled through the dark
Been at the three elven skies
I have seen many men fallen
And I won't forget what they dared

I have lived forever
Seen the world in flames
I have crossed the ocean
Watched the old stories end

Guided by the stars
Walked through the old dragon's lair
I have seen many men fallen
And I won't forget how day died

Go my friend you must carry on
On to the other side
And follow the path to the dawn
Feel no fear our hope isn't gone
Far from your home you must go
