Would you still love me, if I were nothing?
Would you still call me your friend?
Would you still wipe my tears away?
If you knew I'd break your heart, someday?
Would you still hold me close at night?
If another lover caught my eye?
Would you still spend your life, devoted to me?
If I never spent one day, loving you faithfully?

Chorus:

You'd still love me, you'd still hold me
You're hangin' on to every word I say
I don't have to be somebody
'Cause I'm not anybody
But I know that you'd still love me anyway

Would you still hold me close at night?
If another lover caught my eye?
Would you still spend your life, devoted to me?
If I never spent one day, loving you faithfully?

Chorus:

You'd still love me, you'd still hold me
You're hangin' on to every word I say
I don't have to be somebody
'Cause I'm not anybody
But I know that you'd still love me anyway
But I know that you'd still love me anyway

'Cause you'd still love me
'Cause you'd still love me
'Cause you'd still love me, you'd still hold me
You're hangin' on to every word I say
I don't have to be somebody
'Cause I'm not anybody
But I know that you'd still love me anyway
But I know that you'd still love me anyway
But I know that you'd still love me...
