What's come of me?  
I cannot see, whats right in front of me  
What's come of me?  
I cannot see, whats right in front of me

Lately been dreaming in a different perspective  
and I cannot see, whats right in front of me  
Lately been dreaming in a different perspective  
and I cannot see, whats right in front of me

Where do I go?  
When I can't breath  
All this smoke, and I can't see

These thoughts are everything to me  
These thoughts are everything to me

Where do I go?  
When I can't see  
All this smoke, and I can't breath

Fatal, these thoughts are to me

Lately been dreaming in a different perspective  
and I cannot see, whats right in front of me  
Lately been dreaming in a different perspective  
and I cannot see, whats right in front of me

Where do I go?  
When I can't see  
All this smoke, and I can't breath
