Waiting softly, you may hear me calling to you now, oh
to you now,
Doorsteps falling, you may hear me pulling from you
now, oh from you now,
Cause Iâ€™m wasted and everythings so empty for me
now. Oh for me now.
The ice is forming from the rooftop halo, teach me
now, and tell me how..
Because she tastes so good to me now,
Because she tastes so good to me now.
Falling fast between a rose so black, Iâ€™m tied to YOU,
Bleeding true now, see the leaves fall under falling
painful, understand that I donâ€™t want.
So falling fast between the cedar bellows for me now,
oh for me now,
Pushing time back to the place I left you.
It hurts me now, cause it hurts me now.
Because she tastes so good to me now
Because she tastes so good to me nowâ€¦ohâ€¦FUCK.
