I fucking told you,  
Whatever you wanted. Because they fucking own YOU.  
You know, that they flaunt it.  
I think you should leave here, your foolish to enter.  
It's our world to loath you and hold you and pick up  
anything to feel your gODS  
And I want to touch you,  
And I want to kiss you,  
And I want to kill you,  
The beautiful MURder  
We've already been there,  
We've already done that,  
We all are just sitting and pissing and wasting life  
away,  
To thieve your gods  
So please entertain us, with all of your bullshiT,  
You think your so special, credentials, good schools,  
and NO ESCAPE..to thieve your GODS.  
And I want to touch you  
And I want to kiss you  
And I want to kill you  
The beautiful murder  
And I want to touch you  
And I want to kiss you  
And I want to kill you  
The beautiful murder  
The beautiful murder  
The beautiful murder  
The beautiful
