## "Eleven O'clock"

Visit "[Eleven O'clock](#)" on MotoLyrics.com

Ah! Hey!

Every night about, every night about  
Every night about eleven o'clock  
Every night about, every night about  
Every night about eleven o'clock

Every night about, every night about  
Every night about eleven o'clock  
Every night about, every night about  
Every night about eleven o'clock

I go out, I go out, oh

Every night about, every night about  
Every night about eleven o'clock  
Every night about, every night about  
Every night about eleven o'clock

Every night about, every night about  
Every night about eleven o'clock  
Every night about, every night about  
Every night about eleven o'clock

I go out, I go out, out

Every night about, every night about  
Every night about eleven o'clock  
Every night about, every night about  
Every night about eleven o'clock

Every night about, every night about  
Every night about eleven o'clock  
Every night about, every night about  
Every night about eleven o'clock

Every night about, every night about  
Every night about eleven o'clock  
I go out, I go out, I go out
