Give me a kiss hello goodbye
What's the difference you just end everything you say
with a smile
Wave goodbye hello there's that look in your eye
Forwards backwards back it down the drive
Curtains in the window wave goodbye (x2)
Hello there's that look in your eye
And your crazy smile ah
I know you and you know me too
I know everything that your going to do
I know you and you know me too
I know everything that your going through
I know you and you know me too
I know everything that your going through
I know you and you know me and I know you you know
me and I know you
Give me an invitation I'll be there
Unless of course I got to be somewhere
Give me your wish list let's shake hands
If you don't like it you can have your money back
Ahh (x4)
Give me a kiss hello goodbye
What's the difference you just end everything you say
with a smile
Wave goodbye hello there's that look in your eye
And your crazy smile
I know you and you know me too
I know everything that your going through
I know you and you know me too
I know everything that your going to do
I know you and you know me too
You know everything that I'm going through
I know you and you know me and I know you you know
me and I know you
I know you
