"Let's Take A Trip Together"

Visit "[Let's Take A Trip Together](#)" on MotoLyrics.com

Let's take a trip together
Headlong into the irresistible orbit
Breathing the cold black space
With the glistening edges
Let's take a trip, me and you
Let's go the scenic route

Get to finally, get to finally, get to finally
Get to know each other

Just to be alone with thee, just to be alone
Just to be alone with thee

Somewhere there's no distracting breeze of
information
Leaking through the windows dripping from the trees
Somewhere there's no earthquakes
Of other people's anxious questions
No nervous wrecks going down
No nervous wrecks going down

Let's take a trip together
Headlong into the irresistible orbit
