Kills our trees
It poisons our land
Trashes our water
It makes me sad

The world is getting warmer
Every single day
We need to stop the torture
We're the ones to blame
So we'll stop the madness
With terrorism

It kills our trees
It poisons our land
Trashes our water
Makes me sad

The world is getting warmer
Every single day
We need to stop the torture
We're the ones to blame
So we will stop the madness
With terrorism

Police are coming
They've brought their guns
We'll start running
Run, run, run

The world is getting warmer
Every single day
We need to stop the torture
We're the ones to blame
So we'll stop the madness
With terrorism
