Album : Survival sickness (2001)

didn't take your sleeping pills last night, won't take
them again tonight
i stayed up with the lights on, i'm going to stay up all
night
cause i don't want to live that way
didn't take your sleeping pills last night, won't fall into
coma again
i've had enough of your nightmares, i'm going to stay
up my friend
cause i don't want to live that way
cures against sleep and nightmares, i'll leave them be
didn't take your sleeping pills last night, won't take
them again tonight
i stayed up with the lights on, i'm going to stay up all
night
cause i don't want to live that way
didn't take your sleeping pills last night, won't fall into
coma again
i've had enough of your nightmares, i'm going to stay
up my friend
cause i don't want to live that way
cures against sleep and nightmares, i'll leave them be
didn't take your sleeping pills last night
cause i don't want to live that way
