Album : Survival sickness (2001)

i want to smash it up for all the workers who spent
hours into nothing
i want to smash it up for all my sisters who got caught
up in this funky system
i want to smash it up just like a locust, like a satellite
shooting rockets
i want to smash it up in every way I can, right now I
think I want to be your man
smash it up yeah, when i'm down
i want to smash it up for all the kids who, who got
fucked up just like their parents did
i want to smash it up, the gods and masters who made
us die so much faster
yeah yeah, you know i wanna smash it up
yeah yeah, you know we gotta smash it up
yeah yeah, common pretty smash it up
everybody right now, common everyone
smash it up yeah, when i'm down
i want to smash it up for all the people and for our right
to be, to be treated equal
i want to smash it up for all my friends, i hope you stick
around until the very end
yeah yeah, you know i wanna smash it up
yeah yeah, you know we gotta smash it up
yeah yeah, everybody wants to smash it up
common everyone right now, yeah
smash it up yeah, when i'm down, yeah
i wanna smash it up
