Album : Survival sickness (2001)

manifest this repression with smart bombs and easy  
listening  
rally me up in this non-decision making, i've got my  
mind in for the taking  
my heart still hurts from last night, do you feel alright  
i've got, i've got survival sickness  
yeah yeah yeah yeah yeah yeah  
entertain me, the plot thickens, serve me up some of  
your good living  
a grand total of understatement, show me salvation  
and i'll hate it  
my heart still hurts from last night, do you feel alright  
i've got, i've got survival sickness  
yeah yeah yeah yeah yeah yeah  
you know how it feels not to be wanted down here  
you know how it feels not to feel at home anywhere  
you know how it feels to live life down on your knees  
you know how it feels to always say please, yeah  
my heart still hurts from last night, do you feel alright  
i've got i've got survival sickness  
yeah yeah yeah yeah yeah yeah
