So i told you you could be my darkest friend
So i told you you can do me again and again
So i told you that i cant remember another no, no one
other no
If i mentioned you would be my hardest fight
If i said, that you were my guiding light
If i told you you can stay as long as you like, no i
dont mind, you know i dont mind

You cannot leave anymore
Get some releif in emotion, motion, motion, motion
Set free, just be and we'll soar
Trust now, dont freeze in emotion, motion, motion,
mo...

Tell me that this feeling will not change
When your all around me i feel so strange
Tell it to me so i dont feel so afraid of nothing,
afraid of nothing
Sing it with me i wont do this alone
Sing it with me this is not my solo
You were singing this with me all along, you know i
dont mind, you know i dont mind

You cannot leave anymore
Get some releif in emotion, motion, motion, motion
Set free, just be and we'll soar
Trust now, dont freeze in emotion, motion, motion,
