Time i will embrace
Truth, just stays in place, yet i don't fear at all
Eyes are set in space
This flies in the face of grace, and i can see it all

Of this world, erase
All our time, and space

This logic explains
How instance came to be, you still don't see at all
Ignorance replace
You're witness is such a waste, you'll never see it,
all
All...

Of this world, erase
All our time, and space
Of these words, at stake
All around you too, erase

Is so...
I know...

Of this world, erase
All our time, and space
Of these words, at stake
All around you too, erase

You can't erase
You can't erase
You can't erase
