"To Break Your Heart"

Well I may not have much to do in your life
But I've seen you as a brother and very close friend of
mine

But to break your heart once
Is to break mine twice
But to break your heart once
Is to break mine twice

Well, I'm fighting a thousand fights oh as we speak

I can't believe it's me

Well I may not have much to do in your life
But I've seen you as a brother and very close friend of
mine

But to break your heart once
Is to break mine twice
But to break your heart once
Is to break mine twice
