"Round & Round"

Visit "[Round & Round](#)" on MotoLyrics.com

Have you ever wondered why you sometimes see me
smile ?

It's to tell you that I care.

And the best thing you can do is come and follow
through

just to hold me
just be there.

I'm falling in love

I can't help myself.

You're making it clear that I need no one else.

The state of the heart that just won't give in

right here's where we start

'cause you send me.

Round and around and around round

Round and around and around round -
that's what you do

Round and around and around round -
I'm falling for you

Round and around and around round.

Has it ever crossed your mind that you might want to
find

something else or someone new ?

'Cause the pleasures that you give I just don't want to
share

not with no one

just with you !

I'm falling in love

I can't help myself...

Round and around and around round -
that's what you do

Round and around and around round -
the state of my heart

Round and around and around round -
come follow me through

Round and around and around round - come on.

Give me your all the best way you can

make me feel you're the only man.
Give me the touch that'll bring me to the knees.
And now that I know how your love can be

hold me closer
baby
be good to me.

Can't help falling in love - just the state of my heart -
I just can't get enough - oh
how you send me.
Round and around and around round - you go straight
to my head

Round and around and around round - that's what you
do

Round and around and around round - I'm falling for
you

Round and around and around round - oh
you send me.

Round and around and around round -...
