Hi
Girl you just caught my eye
Thought I should give it try
And get your name and your number
Go grab some lunch and eat some cucumbers

Why, did I say that?
I don't know why.
But you're smilin' and it's something I like
On your face, yeah it suits you
Girl we connect like we have bluetooth

I don't know why
I'm drawn to you
Could you be the other one so we'd equal two?
And this is all based on a lucky chance
That you would rather add then subtract

You and I
Could be like sonny and cher
Honey and bears
You and I
Could be like aladdin and jasmine
Lets make it happen like

La La's

Hey
How've you been?
I know that it's been awhile.
Are you tired cause you've been on my mind
Runnin' thousand & thousands of miles
Sorry, I know that line's outta style
But you
You look so beautiful on this starry night
Loving the way the moonlight catches your eyes & your
smile
I'm captivated
Your beauty is timeless never outdated

I don't know why

I'm drawn to you
Could you be the other one so we'd equal two?
And this is all based on a lucky chance
That you would rather add then subtract

Babe
It's been 5 years since that special day
When I asked you on our first date
I guess it's safe to say

Let me say
You look beautiful on our wedding day
