I don't know what I really want in life
Well, of course, I want some love
And I may need something to keep my inspired,
So I don't drive myself crazy

On the way, I tried to stay on my path
Glad for the things that I've learned in my past
And I try not to choose based on old decisions
And soon I'll get stronger,
Without such divisions

And I want to know the future, yeah
But I can't look over this day, no
I could work until I'm blue, from the mission
Til it's more than just a vision in my head

More than just a vision in my head
More than just some "thing" somebody said
More than just a lesson to be read
More like part of you and me, instead

I don't know where to look for guarantees
Well of course, I want the truth
There are so many ways I could go, I think I..
Might just stay in the moment
All I know is I've got to make my way
Cause I don't have time that I want to waste
And if I honestly look, I might find:
That I'm dumb in the heart
And out of my mind

And I want to know the future, yeah
But I can't look over this day, no
I could work until I'm blue, from the mission
Til it's more than just a vision in my head

More than just a vision in my head
More than just some "thing" somebody said
More than just a lesson to be read
More like part of you and me, instead

Oh yeah

Is this a bridge, yeah?
It's just a bridge, yeah!
It's just a bridge, yeah!

And I want to know the future, yeah
But I can't look over this day, no
I could work until I'm blue, from the mission
~Til it's more than just a vision in my head

More than just a vision in my head
More than just some ~thing~ somebody said
More than just a lesson to be read
More like part of you and me, instead
More than just some Thing hanging over my bed!
Oh yeah
More like part of you and ME
