Now close your eyes...

You're present in my sleep you hunt me when I'm
awake.

My soul you seem to keep.

My heart will weep again and again and again...

These days? In my head? Make me feel you are the
one...

These dreams in my head seem real...

In my heart

You're in my heart

You're in my soul

In my soul

Want you close

In my heart

You're in my heart

You're present in my sleep you hunt me when I'm
awake.

My soul you seem to keep my heart will weep again and
again and again...

These days? In my head? Make me feel you are the
one...

These dreams in my head seem real...

You're in my heart

(In my heart)

You're in my soul

Want you close

(In my soul)

You're in my heart

(In my heart)

You're in my soul
