"I Want To Die"

I'm too tired of this life
I just wanna die
All I need is my big sleep
I just wanna die
You are so far away
I love you to death
You love someone else
So I just wanna die

Another day passed me by
I still wanna die
Another day filled with pain
I still wanna die
You are not here
I love you to death
You're with someone else
So I just wanna die

Create hate
I hate myself for loving you

"We have touched for the last time
You are long gone, in love with someone else
I now fear nothing but life itself
And I have learned that living is just a slow way to
die
I do not believe in life or in love anymore.
The joy I feel are the joys of emptiness

I hate myself for loving you
The fear I feel night after night has developed into a
disease
No-one can see the emptiness in my eyes.
To escape life itself now seems the only solution
With relief i look foward of letting go of the pain
Finally... there is peace in my soul
To lie dead without a concern , without a tear,
You own my heart
And life without you is so imensly painful
Just to think of you, talk about you, dream of you
makes tears stream down
my face

I cannot imagine happiness without your beautiful
smile, your angelic face,
your wonderful body and your good heart:
You are everything , I am nothing
I want to die
But really... I am already dead"

I will not live
