Thank you for everything
Every moment you shared
I appreciated your stay
Every smile you gave away

What's the reason to live when I cannot love?
(I can't get over you)
What's the reason to live at all?

What's the reason to live when I cannot love?
(I can't get over you)
What's the reason to live at all?

Thank you for leaving
Now I clearly see dark
Embraced by agony
I fear nothing but life

What's the reason to live if I cannot love?
(I can't get over you)
What's the reason to live at all?

What's the reason to live when I cannot love?
(I can't get over you)
What's the reason to live at all?

What's the reason to live when I cannot love?
(I can't get over you)
What's the reason to live at all?

What's the reason to live when I cannot love?
(I can't get over you)
What's the reason to live at all?
