It's so dark in my home  
With this world I live alone  
Whiskey (soul) in my sunrise  
In my hell like a silver eyes  
In the cantina  
Some (strange) story now  
I'm here sleeping  
In a ? silver  
And now my home is cantina  
In her rooms from rushes  
All I love is now ashes  
Windows shows by the shown  
All my love  
I'll find it crying this eve at night  
All my love  
Is mother dirked  
Is brother dirked  
Dying?.. lovers town to this world  
So their home is a cantina

In her rooms ? from rushes  
When all your love will be ashes  
In the dark stormy windows  
Whiskey (soul) at my nightfall  
All my love  
I'll be finding crying this eve at night  
All my love  
Oh to be ??  
Say back home  
Draw around for me and my friends a cantina
