I'm like a lion in the morning  
lion in the morning  
when he rises  
Have you ever met  
a roaring lion yet  
Have you ever seen  
when the master is getting vex  
He said  
keep away from the dark  
yes we know who you are  
they try to hurt the lion  
it a go hot like fire  
Each to teach his own  
Don't go where the lion roam  
please do not provoke  
or take any lion for joke  
Why must a cub suffer  
the road will get rougher  
Bring the children together  
so that they won't suffer  
Holy mount Zion  
that's the jungle of the lion  
the higher lion  
Remember who is king of the jungle  
He keep I and I strong right through  
give praises in the morning  
while Jah sun is dawning  
when the lion starts roaring  
the wicked system dissolving
