

Mortician "Dr. Gore"

Visit "[Dr. Gore](#)" on MotoLyrics.com

Tormented by his lover's death
Need to recreate the flesh
Seeking perfect body parts
Experiments about to start

Dismember to bring back the dead
Bloody torso complete with head
Need to sever fresh arms and legs
Eyeballs taken out of the head

Hacking off pieces off the head
Creation of the perfect flesh
Completion of the body parts
Remains thrown into acid vat

Bizzare creation of new life
Creation a new perfect wife
Five victims dismembered in death
Contributing in blood and flesh
