Isolated house of death
Cannibals rip the flesh
Bodies hang from meathooks
Human flesh peeled and cooked
Tables made of human bones
Rotting bodies fill their home
Roasted organs, shredded skin
Human meat, sliced up thin
Demented sadist family
Barbaric killing spree
Cannibals you can't escape
Leatherface seals your fate
Chainsaw rips through the flesh
Cut apart, dismembered death
Organs, guts torn and thrown
Stripping skin to the bone
Hammer smashes in your head
Gutted corpse lying dead
Body parts in the stew
Hacked up for barbecue
