"Pledge Night Of Death"

Visit "[Pledge Night Of Death](#)" on MotoLyrics.com

Years of anger, thoughts of murder
Final prank night, pledges will die
Family secret haunts the present, time for revenge
Insane killer, trial of murder, string of bodies
Psycho sister, twin of evil
Escaped patient, lusting for death
Axe in the head, shears in the chest
Swift beheading, mutilating
Hell night of death, fresh blood is shed, savage
murder
Family hatred, all will be dead, sick vendetta
Good and evil, one will be killed
One more victim will die tonight
