Night of terror  
Brutal Murder  
Psycho killers  
Endless Slaughter  
Eviscerated  
Throats will be slit  
Cut, chopped and hacked  
Stabbed in the back  
Calls of terror  
Game of horror  
Fuck up, you die  
Gutted alive  
Savage killing  
Mutilating  
Carving the flesh  
Blood-spattered death  
Screaming for help  
No one will come  
Knife blade flashing  
Your life will end  
Corpse strung up  
Throat is cut open  
Disemboweled  
Guts spilling out  
One more still left  
Knife tears the flesh  
White mask of death  
Takes your last breath
