Visit "[When We Meet Aliens...](#)" on [MotoLyrics.com](#)

I see no ground or sky
I don't not see people
And sometimes I do

I have no time to waste
Searching for answers
To questions that have none
We'll all die, I can live with that

You finally found a way to sit inside my skin
I say, "Don't worry" 'cause it's coming around again
I finally found a way to fit inside my skin
I begged, "Don't worry" 'cause I always come through
in the end

Don't keep a collection
Piling up up
Counting all of your karma

But you are still
Searching for answers
To questions that have none
We'll all die, I can live with that

You finally found a way to sit inside my skin
I say, "Don't worry" 'cause it's coming around again
I finally found a way to fit inside my skin
I begged, "Don't worry" 'cause I always come through
in the end

You finally found a way to sit inside my skin
I say, "Don't worry" 'cause it's coming around again
I finally found a way to fit inside my skin
I begged, "Don't worry" 'cause I always come through
in the end
