(Verse 1)

Things got a little crazy  
And I don't even mean it in a good way  
But I was missing u baby  
And there ain't no excuses that I could say  
Except for  
Where were you  
Where were you  
That's what u were doing u..doing u  
Baby I couldn't help  
Feeling the way I felt  
I was looking out for myself

Cause we hadn't spoken in weeks  
How was I to know that u would come back to me  
Thought u said u needed ur space  
Never could imagine the mistake that I made

(Chorus)

That's why I'm screaming  
Don't let, don't let, don't let this go  
Don't let, don't let, don't let this go  
Baby I was wrong  
But I'm holding on  
Cause there's nobody to catch me when I fall..  
Don't let, don't let, don't let this go  
Don't let, don't let, don't let this go  
I know I was wrong  
But I'm holding on  
Cause there's nobody to catch me when I fall..

(Verse 2)

There was no way to stop it  
I never should've been there in the first place  
But it was so on & poppin'  
I guess there was rejection all around my face  
But baby I was missing u..missing u  
Felt like I was kissing u..kissing u

It wasn't quite the same  
Temporarily insane  
Never thought I would see u again

Cause we hadn't spoken in weeks  
How was I to know that u would come back to me  
Thought u said u needed ur space  
Never could imagine the mistake that I maaddee

(Chorus)

That's why I'm singing  
Don't let, don't let, don't let this go  
(Don't let this go)  
Don't let, don't let, don't let this go  
(Don't let this gooo)  
Baby I was wrong  
But I'm holding on  
Cause there's nobody to catch me when I fall..  
Don't let, don't let, don't let this go  
(Gooo)  
Don't let, don't let, don't let this go  
(Gooo)  
I know I was wrong  
But I'm holding on  
Cause there's nobody to catch me when I fall..

(Bridge)

And u know I couldn't even get a call back  
I took it like u wanted me to fall back  
U were busy pushing me off  
Now I can't believe that I'm the one who's paying the  
cost  
When I was simply tryna bounce back  
And feel the void, now I found myself off track  
And I just wanna bring back the love that we haaad

(Chorus)

That's why
