(Verse 1)

Ever have somebody that'll switch ur whole game
Get up in ur head and flip the whole thing
And don't wanna let u loosing it
Control can be regained
But u like it (yeah) so ur not looking for a change
Friends don't understand it cause it ain't like u
Normally don't play em close
But I like u
And its scary
To tell the truth, ur a nightmare but boy keep it right
there

(Chorus)

What do I dooo
When I can't get away from uuu
Ur everything, all that I do
Its like a bad dream
And ur in every scene

Baby ur a monster..monster
I should run from ya
When u come around, I get silly
Boy this is scary
This is scary
And its true, I never had it like u before
What u do haunts me
But I still want more
This is scary..
This is scary..

(Verse 2)

And u were buried..
Under my skin
I feel u when ur not here
I don't understand this
I believe in ur love like its my religion
Praying when I know wrong
Ohh..ur too big, to go round

I'm going in, no coming out
And this is scary
To tell the truth, ur a nightmare but boy I want u right
here

(Chorus)

What do I dooo
When I can't get away from uuu
Ur everything, all that I do
Its like a bad dream
And ur in every scene

Baby ur a monster..monster
I should run from ya
When u come around, I get silly
Boy this is scary
This is scary
And its true, I never had it like u before
What u do haunts me
But I still want more
This is scary..
This is scary..

(Bridge)

Feeling all round for ur love
Walking in the dark, when my eye is closed
Ur all over me..
This is scary..

(Chorus)

Baby ur a monster..monster
I should run from ya
When u come around, I get silly
Boy this is scary
This is scary
(And its true I never)
And its true, I never had it like u before
What u do haunts me
But I still want more
This is scary..
This is scary..

Woaahh uhoh
