Intro

Every little thing x 6

Chorus

Every little thing I do
Every little thing ain't enough for you
Every little thing I say ain't right
Every little thing ends up a fight
Every little thing we try to fix
Every little thing accept admit...
Every little thing every little mistake
Every little thing keeping me awake

Verse1

We used to have such a good life
An I thought I would make you my wife
I got told not to be naive
Too young to know what they could mean
Now it feels like nothings ever right
Thinking of you in the middle of the night
You don't appreciate what I do
When it's all for you

Voice in my head tells me we need to go our separate
ways
I tried to make it work but girl I know that we both
changed
I tried to find the love in you that I once felt before
But time has moved us on an now there's not an open
door
It might be strange at first to wake up knowing we've let
go
Flashbacks will cross our mind the memories will be so
strong
I know that everybody has to go through hard times
But this ain't hard this is hell we need our own lives

Chorus

Every little thing I do
Every little thing ain't enough for you
Every little thing I say ain't right
Every little thing ends up a fight
Every little thing we try to fix
Every little thing accept admit...
Every little thing every little mistake
Every little thing keeping me awake

Verse 2

I don't feel nothing no more
Even when you walk out the door
I'm empty inside
This ain't what it should be like
Had a chance an we gave it a try
Now all we do is come home an fight
I don't wanna lose you as my friend
That's why I need to let this end

Voice in my head tells me we need to go our separate
ways
I tried to make it work but girl I know that we both
changed
I tried to find the love in you that I once felt before
But time has moved us on an now there's not an open
door
It might be strange at first to wake up knowing we've let
go
Flashbacks will cross our mind the memories will be so
strong
I know that everybody has to go through hard times
But this ain't hard this is hell we need our own lives

Chorus

Every little thing I do
Every little thing ain't enough for you
Every little thing I say ain't right
Every little thing ends up a fight
Every little thing we try to fix
Every little thing accept admit...
Every little thing every little mistake
Every little thing keeping me awake
