### Chorus

Baby light a candle for me  
So I can find my way back home  
To tell you that i miss your loving  
I don't wanna be alone  
To tell you that I need you  
An nothings gonna change that you know  
Girl I'm gonna love you  
For as long as the light goes...

### Verse 1

I took the wrong road straight into the dark  
You tried to save me and I broke your heart  
And it wasn't cos I didn't love you  
I didn't want you to get trapped like me  
An now I'm glad cos your the only one  
With any goodness left surrounding me  
I'm trying not to keep you waiting  
I'll do my best to find your light  
Your faith is feeding me  
Keeping my candle burning bright

### Chorus

Baby light a candle for me  
So I can find my way back home  
To tell you that i miss your loving  
I don't wanna be alone  
To tell you that I need you  
An nothings gonna change that you know  
Girl I'm gonna love you  
For as long as the light goes...

### Verse 2

I'm wandering round these doors inside my mind  
Hoping the next one opened, brings me right to your  
side  
But there's so many rooms in here  
Full of bad choices that I made  
Need to lock and shut em' tight and pray these

memories fade away  
I will turn my life around once I get out girl wait and see  
Girl Imma make it back to you  
And change to make you proud of me

#### Chorus

Baby light a candle for me  
So I can find my way back home  
To tell you that i miss your loving  
I don't wanna be alone  
To tell you that I need you  
An nothings gonna change that you know  
Girl I'm gonna love you  
For as long as the light goes...

#### Bridge

Bring me back babe  
Girl I'm coming back to you  
Bring me back babe  
To tell you that I love you  
Bring me back babe  
Girl I'm coming back to you  
Bring me back babe  
Show me the way

#### Chorus x 2

Baby light a candle for me  
So I can find my way back home  
To tell you that i miss your loving  
I don't wanna be alone  
To tell you that I need you  
An nothings gonna change that you know  
Girl I'm gonna love you  
For as long as the light goes...
