[Words and Music - Steve Rowe]

Hatred wasting mankind, racism, black and white  
Kill your neighbour, what do you care, he is worthless  
scum  
Open your eyes, see the truth, we are all of dust

Blood world, the blood of life  
Who will care, who will unite?  
Blood world, the blood of Christ  
All men are equal in his sight

Loneliness destroying lives, rejected, hated, despised  
Kill your neighbour, what do you care, he was born to  
be lost  
A hated man, scorn of your laugh, seeing yourself first  
Care, share, be fair, be aware

Christ uniting mankind, equal black and white  
Love your neighbour as yourself, you are your brother's  
keeper  
Open your eyes, see the truth, hatred is a killer
