[Music & Words by Steve Rowe]

Eternal love, hope in life, satisfaction, peace of mind  
Do you feel these things inside  
Or lost your life's denied  
Christ has come to heal your mind  
To win and be revived

You run from God, you smashed the gift  
Thrown from glory, it's your own will

Christ has come to heal your mind  
So choose to be supplied  
With life in glory here on earth  
Eternity break the curse

Running from Christ don't do it  
See the light run to it

Cross over or you will die  
Run from darkness come tonight

Break the curse, that's in your life  
From daze of fear, to shrine of light  
Feel it break down deep inside  
Your soul has come alive  
Expelling demons brand new birth  
Eternity break the curse
