I'm not confused, I know where I'm going  
I'm not confused, I know where I'm going  
Eternity is a very long time  
I think about what we will find  
Can this be the end of it all  
Just this life or is there more  
Broken bodies lying on the ground  
Broken mind that is not found  
Are we just a piece of meat  
There must be more than we can see  
What is this life that is mine  
Muscles and meat hanging on a bone  
Are we just a shadow of self  
Or are we a product of design  
Broken brain walking round the town  
Lost at sea nowhere to be found  
Live your life as we are drowning  
Reaching out to another land  
Are we burning, or are we shining  
Thinking about burning Thinking about burning  
Thinking about shining Thinking about shining  
Thinking about burning Thinking about shining  
Thinking about burning Thinking about shining  
Eternity is a very long time  
I think about what we will find  
Can this be the end of it all  
Just this life or is there more  
Broken brain walking round the town  
Lost at sea nowhere to be found  
Live your life as we are drowning  
Reaching out to another land
