CHORUS

Starlight - starbright

Show me the light

Starlight - starbright

Show me the light

I confess that sometimes

I question how things are

I ask myself if I gaze into the starlight

I know that I will be alright.

But loved ones and friends

I pray will be there too

Life is short - am I aging

When I know I'm still learning

Questions formed - and the answers

There's no mystery

Cause I know the purpose of life

CHORUS

CHORUS

Murder, lies, deceit

I will follow none of these

Oppressed and consumed

But still my life is free

Life on earth calls for strength

Respect and courage I must build within

Eloi - dawn on me

The dawn of eternity

Eloi - dawn on me

The dawn of eternity
