"Your Life"

I see your life
You're going nowhere
I see your life
Are you in despair
Fear comes in the night
Afraid of what comes next
What is this life, what is this mess?
BRIDGE
My mispent, recompense
What is hope? My despair
Don't want to raise raise my head
Sleep engulfs my pain
What is my release, purpose for this flesh?
BRIDGE
Drugged and lost I come
I hear the music play
They speak my release
The new born life
BRIDGE
Hope kills my pain - what is this change?
God has come to me, life infills my veins
My new life, I repeat
This is hope, my new way
I see your life
You're going somewhere
I see your life
You're mind is in His hands
