Girl you're a work of art
Call you my Monalisa
Get up off that wall
I'm also glad to meet ya
,at your hips,
Supernatural, supernatural

You got it all, it's something magical that's got me
wanting more
Feels like it hit me right to the core
It's such a mystery to me I get the strangest feeling
Deep within, you're supernatural, you're supernatural,
supernatural
You're electrifying even your touch, oh
You're body's so magnetic I just can't get enough, girl
You're supernatural,

Your body floating like a ship
I'll sink it like a nice bug
Got you on my list, you top it cause you're fire
Can't get you off my mind
Slide up a little closer
Supernatural, supernatural

You got it all, it's something magical that's got me
wanting more
Feels like it hit me right to the core
It's such a mystery to me I get the strangest feeling
Deep within, you're supernatural, you're supernatural,
supernatural
You're electrifying even your touch, oh
You're body's so magnetic I just can't get enough, girl
You're supernatural.
