you dont really gotta tell me hes gone  
cuz i been waiting here for so long  
tell me baby where your going  
where were going to be baby  
cant stand to see you like this  
how could you be so heartless  
now i think its time to make a change

said im never gunna change your ways  
i guess i gotta walk away without you  
i dont wanna be the one to turn my back so easily  
im sorry but im walking away  
but i really gotta do this now before this love gets the  
best of me  
im sorry but im walking away  
walk away, walk away, walk away, walk away  
(said i gotta go, said i aint got no other way)  
walk away, walk away, walk away, walk away

you say you aint going nowhere  
when your next to me your really not here  
always blame, always make me feel ashamed  
but you know it aint the same thing now  
now all the pain you put me through  
so much for me and but nothing to you  
now (?) before i fall apart (ohh)

said im never gunna change your ways  
i guess i gotta walk away without you  
i dont wanna be the one to turn my back so easily  
im sorry but im walking away  
but i really gotta do this now before this love gets the  
best of me  
im sorry but im walking away  
walk away, walk away, walk away, walk away  
(said i gotta go, said i aint got no other way)  
walk away, walk away, walk away, walk away

when is love,  
aint gonna play no games its not the way its suppose to  
be

no, no, no, no oh oh oh  
the way we touch  
though your bodys close to me  
i can feel your love walking away

i dont wanna be the one to turn my back so easily  
im sorry but im walking away  
but i really gotta do this now before this love gets the  
best of me  
im sorry but im walking away  
walk away, walk away, walk away, walk away  
(said i gotta go, said i aint got no other way)  
walk away, walk away, walk away, walk away

i dont wanna be the one to turn my back so easily..
