"Melt Into You"

I melt into you
Ooh Thinking Â'bout your feet in the sand
With your drink in my hand
We made our paradise down by the beach
When I fell in love with you
Yeah I fell in love with you

I fell fast for you
Ever since I think I stepped out of time
Since the day I made you mine

YouÂ're the one, youÂ're the moon and youÂ're the
sun
YouÂ're the blood thru my veins
IÂ'm just lost without you, IÂ'm just lost without you
Every day you take my breath away I pray you always
stay by my side
I just melt right into you, I just melt into you

I see a tropical sky in your eye
And I fall in love again, I fall in love again with you
